We are deploying Ken McPherson from the Pesticides program to serve on this workgroup. He is a SITL in our IMT.

Thanks!! I set up areal spraying for mosquito s with DOD during hurricane kartrina. The hatch won't be for a while. Keep bee keepers in the front of your minds during any spraying efforts!!!

My Dad sprayed the public in the 80's for saltwater marsh mosquitos. First time a non DoD site was treated. My Dad was/is a medical entomologist with US Army.

Get Patrick Young involved at the RRCC.. he has been involved in past incidents...

With Regards, Steve

Subject: "Heads Up" on Vector Control

All: We were just approached by the Deputy Ops Chief from FEMA regarding the issue of Vector Control (i.e., aerial mosquito spraying).... They are setting up a task force right now at the Governor's request.... They want EPA participation on the Task Force. The word right now is they would prefer to have DoD in charge of the aerial spraying and not contractors but, this might change.

I will keep you posted on this.
